PAN AMERICAN

**PAN AMERICAN McDonnell Douglas DC-8-33**

Pan American operated a fleet of 21 DC-8-33s (N800PA-N820PA). The pictured N8184A originally was registered N818PA when it was delivered to PA on December 22, 1960. It was reregistered in October, 1965 after Delta had purchased 7 of the fleet from PA (1/2/3/14/16/17/18). These aircraft were operated in a DL/PA interchange program effective May 29, 1964. DL crews would fly the aircraft on the MSY-ATL-IAD route where a PA crew would continue on to PHL and alternating to LHR and ORY. The interchange was discontinued when DL received their European authority.
